HUMAN FLY CLIMBS TURNER BLOCK FRIDAY EVENING

Does His Stunt in Ten Minutes Despite the Rain. Sixteen dollars and fifty cents for

ten minutes' work was the accom-plishment of Jack Williams, the "Hu-man Fly," who again climbed the Furner block, Friday evening. "Jack" said that he would climb the Murray block blindfolded and would also go to the top of the town building but the weather interfered with his plans. During his speech and while five of the Home Guard was making the collection, several outbursts of rain made the crowd scurry for shelter and each time, some of them did not come back, so the audience gradually dwindled. When the rain continued, he decided to climb the Murray block without the blindfold, if he could, but if he was unable to, he would go as far as he could.

Finally, the rain appeared in such quantities that he decided not t climb the Murray block at all, but go up the Turner block. On his way up, he stopped several times in windows

there. Saturday of this week is a blank day on his schedule and he may climb some local building that night, depending on how Mayor Dunn and Chief Killourey thinks about it.

Captain Frank P. Fenton of the Willimantic Home Guard and member of the local Council of Defense then made a presentation speach, which was well worth hearing.
